1	The idea of such course is very good, and it could be extremely useful. The only problem is that I have the impression that westlaw still has a lot of features that was not shown to us in the class, and the searching methods to be used was not completely clear even to the teachers.	
2	The final assessment was totally unnecessary, just waste of time.	
3	The course was very useful	
4	The course, although a little short, but was adequately designed. The exercise at the end was well designed to test our legal research skills on the various databases.	
5	SJD students were very helpful and they were good facilitators.
